INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, FEBRUARY 18, 2000 - 1000 MST NATIONAL PREPAREDNESS LEVEL I

#### CURRENT SITUATION:

Fire activity increased significantly in the Southwest Area this past week. Moderate fire activity continued in the Southern Area. Very high and extreme fire danger indices are being reported in New Mexico and Texas.

## SOUTHWEST AREA LARGE FIRES:

JOHNNY, New Mexico State, Capitan District. This human caused fire was driven by high winds and low relative humidities near Ft. Sumner, NM. The community was threatened, but no evacuations were ordered. A Burlington Northern Railroad bridge over the Pecos River was destroyed.

LONE PINE, Sante Fe National Forest. This wildland fire use fire is 20 miles northwest of Las Vegas, NM. The fire continues to be monitored as smokes are still present in the interior.

## OUTLOOK:

A frontal system will move into the southeastern states bringing showers and thunderstorms today and Saturday. Sunday and Monday will be drier and windy. More showers and thunderstorms are expected late Monday and

Tuesday with another front Wednesday and Thursday. High temperatures will be in the 50's and 60's in the north to the 70's and 80's in the south.

Texas and Oklahoma will be dry and windy today. Saturday and Sunday will be partly cloudy with winds increasing late Sunday. Showers are possible Monday through Thursday. High temperatures will be in the 40's and 50's north to the 70's in the south today, warming to the 60's and 70's Sunday. Cooler temperatures will are expected by mid-week.

Arizona and New Mexico will be dry and warmer through Sunday. Showers are possible in northern Arizona late Sunday, spreading into northern New Mexico by Tuesday. Sunday and Monday will be windy, with dry conditions returning Wednesday and Thursday. High temperatures will range from the 40's in the mountains to the 60's and 70's in the deserts.
